EDUCATION

Vellore Institute of Technology- (VIT-AP) BTech in Computer Science (Software Engineering) - CGPA: 8.11	Andhra Pradesh September 2023 – present
Allegiance Academy School Senior Secondary School Examination – 74.4%	Kukshi, Madhya Pradesh Passing Year: 2022
Allegiance Academy School Secondary School Examination – 69.8%	Kukshi, Madhya Pradesh Passing Year: 2020

EXPERIENCE

Technology Job Simulation Deloitte (Forage) July 2025

- Completed a virtual technology job simulation focused on solving real-world software engineering and development challenges.
- Applied programming and problem-solving skills to complete practical coding tasks and development-based assignments.
- Worked on debugging, analysing requirements, and implementing efficient software solutions using industry-standard practices.
- Strengthened understanding of the software development lifecycle (SDLC), and logical problem-solving.

PROJECTS

AI-Powered FRA Atlas & WebGIS DSS

AI · WebGIS · Python · GIS · Machine Learning

- Developed an AI-powered WebGIS platform to monitor FRA implementation across India using satellite imagery and geospatial data.
- Integrated ML and GIS for forest-cover change detection, CFR mapping, and interactive data visualization.

Personal Portfolio Website

React.js · HTML · CSS · JavaScript

- Developed a responsive portfolio website using React.js, HTML, CSS, and JavaScript to showcase skills and projects.
- Designed a clean, interactive UI with reusable React components and responsive layouts.

ACHIEVEMENTS

- Smart India Hackathon (SIH)
- DSA Quest

CERTIFICATIONS

Data Analytics Virtual Internship Simulation — Deloitte (via Forage)
IBM – Agentic AI (Building Agents with Agentic AI)
BOSTON – Python for AI

SKILLS

- Programming Languages: Java, Python, C, C++
- Web Technologies: HTML, CSS, JavaScript
- Databases: SQL, MongoDB
- AI/ML: TensorFlow, Keras, Scikit-learn, CNN, Data Preprocessing
- UI/UX: Figma, Wireframing, Prototyping, User Interface (UI), User Experience (UX)
- Software Engineering: SDLC, UML Diagrams (Use Case, Class, Sequence, Activity, ER), Requirements Analysis, System Design
- Data Analysis: Data Modeling, Feature Engineering, Data Visualization
- Tools: Git, GitHub, VS Code
